Fold each printed sheet in half lengthwise. The left side of the document will list the term and the right side will list the definition. Tape or staple the open edges of your flashcards. Cut out your flashcards on the solid lines indicated and fold them on the dotted lines.

Module 3: Section A: Aligning Sourcing to Demand				
Term make-or-buy cost analysis APICS CSCP Learning System	© 2023		Definition A comparison of all the costs associated with making an item versus the cost of buying the item.	
 Madula 2: Costion A: Aligning		3		
Module 3: Section A: Aligning Sourcing to Demand				
Term make-or-buy decision		******	Definition The act of deciding whether to produce an item internally or buy it from an outside supplier. Factors to consider in the decision include costs, capacity availability, proprietary and/or specialized knowledge, quality considerations, skill requirements, volume, and timing.	
APICS CSCP Learning System	© 2023			
Module 3: Section A: Aligning Sourcing to Demand				
Term outsourcing APICS CSCP Learning System	© 2023		Definition The process of having suppliers provide goods and services that were previously provided internally. [This] involves substitution-the replacement of internal capacity and production by that of the supplier. See: subcontracting.	
	@ 2023	: ;		
Module 3: Section A: Aligning Sourcing to Demand Term insourcing			Definition Using the firm's internal resources to provide goods and services. See: make-or-buy decision.	
APICS CSCP Learning System	© 2023

Module 3: Section A: Aligning Sourcing to Demand			
Term landed cost		 Definition This cost includes the product cost plus the costs of logistics, such as warehousing, transportation, and handling fees.	
APICS CSCP Learning System	© 2023		

The main insight that [this] offers to the supply chain

often a very small portion of [this concept].

manager is the understanding that the acquisition cost is

Module 3: Section B: Category Strategy for Sourcing		
Term supplier partnership		Definition The establishment of a working relationship with a supplier organization whereby two organizations act as one. Syn: collaborative supply relationship.
APICS CSCP Learning System	© 2023	
Module 3: Section B: Category Strategy for Sourcing		
Term strategic alliance		Definition A relationship formed by two or more organizations that share information (proprietary), participate in joint investments, and develop linked and common processes to increase the performance of both companies. Many organizations form [these] to increase the performance of their common supply chain.
APICS CSCP Learning System	© 2023	

Module 3: Section C: Product Design Influence Term quality		Definition Conformance to requirements or fitness for use. [It] can be defined through five principal approaches: (1) [The transcendent type] is an ideal; a condition of excellence. (2) [The product-based type] is based on a product attribute. (3) [The user-based type] is fitness for use. (4) [The manufacturing-based type] is conformance to requirements. (5) [The value-based type] is the degree of excellence at an acceptable price. Also, [it] has two major components: (1) [conformance-it] is defined by the absence of defects, and (2) [design-it] is measured by the degree of customer
APICS CSCP Learning System	© 2023	satisfaction with a product's characteristics and features.
Module 3: Section C: Product Design Influence Term design		Definition The conversion of a need or innovation into a product, process, or service that meets both enterprise and customer expectations. The design process consists of translating a set of functional requirements into an operational product, process, or service.
APICS CSCP Learning System	© 2023	
Module 3: Section C: Product Design Influence Term design for the supply chain APICS CSCP Learning System	© 2023	Definition Enhancement of a firm's product design in consideration of the issues that will arise in the supply chain, from raw materials to the final stage of the product's life cycle.
Module 3: Section C: Product Design Influence Term design for X (DFX) APICS CSCP Learning System	© 2023	Definition Also referred to as design for excellence. A design process that ensures the outcome is manufacturable, maintainable, cost-effective, and of high quality.

Module 3: Section C: Product Design Influence Term standardization	© 2023	 Definition 1) The process of designing and altering products, parts, processes, and procedures to establish and use standard specifications for them and their components. 2) Reduction of the total numbers of parts and materials used and products, models, or grades produced. 3) The function of bringing a raw ingredient into standard (acceptable) range per the specification before introduction to the main process.	
Module 3: Section C: Product Design Influence Term standardized product	© 2023	 Definition A product that can be made in large quantities, or continuously, because it has very few product designs.	
Module 3: Section C: Product Design Influence Term modular design strategy APICS CSCP Learning System	© 2023	Definition The strategy of planning and designing products so that components or subassemblies can be used in current and future products or assembled to produce multiple configurations of a product. [].	
Module 3: Section C: Product Design Influence Term modularization	© 2023	 Definition In product development, the use of standardized parts for flexibility and variety. Permits product development cost reductions by using the same item(s) to build a variety of finished goods. This is the first step in developing a planning bill of material process.	

design for manufacturability

improve quality and reduce manufacturing costs.

Module 3: Section C: Product Design Influence Term design for service APICS CSCP Learning System	© 2023	Definition Simplification of parts and processes to improve the after-sale service of a product. Syn: design for maintainability.
Module 3: Section C: Product Design Influence Term design for quality APICS CSCP Learning System	© 2023	Definition A product design approach that uses quality measures to capture the extent to which the design meets the needs of the target market (customer attributes), as well as its actual performance, aesthetics, and cost. See: total quality engineering.
Module 3: Section C: Product Design Influence Term design for six sigma	© 2023	Definition An approach to designing products and processes that attempts to ensure the firm can provide products or services that meet six sigma quality levels. These quality levels correspond to approximately 3.4 defects per million opportunities.
Module 3: Section C: Product Design Influence Term quality function deployment (QFD)	© 2023	Definition A methodology designed to ensure that all the major requirements of the customer are identified and subsequently met or exceeded through the resulting product design process and the design and operation of the supporting production management system. [It] can be viewed as a set of communication and translation tools. [It] tries to eliminate the gap between what the customer wants in a new product and what the product is capable of delivering. [This] often leads to a clear identification of the major requirements of the customers. These expectations are referred to as the voice of the customer (VOC). See: house of quality.

Module 3: Section C: Product Design Influence Term postponement APICS CSCP Learning System	© 2023	 Definition A product design, or supply chain strategy that deliberately delays final differentiation of a product (assembly, production, packaging, tagging, etc.) until the latest possible time in the process. This shifts product differentiation closer to the consumer to reduce the anticipatory risk of producing the wrong product. The practice eliminates excess finished goods in the supply chain. Sometimes referred to as delayed differentiation.	
Module 3: Section C: Product Design Influence Term product differentiation	© 2023	 Definition A strategy of making a product distinct from the competition on a nonprice basis such as availability, durability, quality, or reliability.	
Module 3: Section C: Product Design Influence Term mass customization	© 2023	 Definition The use of mass production techniques to create large volume of products in a wide variety keeping production costs low while enabling customized output primarily utilizing postponement or delayed differentiation.	
Module 3: Section C: Product Design Influence Term glocalization	© 2023	 Definition A combination of "globalization" and "localization." In a supply chain context, [this] is a form of postponement where a product or service is developed for distribution globally but is modified to meet the needs of a local market. The modifications are made to conform with local laws, customs, cultures, and preferences.	

Module 3: Section C: Product Design Influence		******		
Term multicountry strategy			Definition A strategy in which each country market is self- contained. Customers have unique product expectations that are addressed by local production capabilities. Syn: multidomestic strategy.	
APICS CSCP Learning System	© 2023]
Module 3: Section C: Product Design Influence Term design for the environment (DFE)	© 2023		Definition Considering health, safety, and environmental aspects of a product during the design and development phase of product development.	
Module 3: Section C: Product Design Influence Term design for remanufacture APICS CSCP Learning System	© 2023		Definition Products developed in a manner that allows components to be used in other products. This process is associated with green manufacturing.	

Module 3: Section D: Supplier Selection, Contracting, and Use			
Term negotiation APICS CSCP Learning System	© 2023	******************************	Definition The process by which a buyer and a supplier agree upon the conditions surrounding the purchase of an item or a service.
Module 3: Section D: Supplier Selection, Contracting, and Use			
Term service level agreement (SLA)		~~~~~~	Definition A document that represents the terms of performance for organic support.
APICS CSCP Learning System	© 2023		
Module 3: Section D: Supplier Selection, Contracting, and Use			
Term contract	@ 2022	******	Definition An agreement between two or more competent persons or companies to perform or not to perform specific acts or services or to deliver merchandise. A contract may be oral or written. A purchase order, when accepted by a supplier, becomes a contract. Acceptance may be in writing or by performance, unless the purchase order requires acceptance in writing.
APICS CSCP Learning System	© 2023	*	
Module 3: Section D: Supplier Selection, Contracting, and Use			
Term annualized contract			Definition A negotiated agreement with a supplier for one year that sets pricing, helps ensure a continuous supply of material, and provides the supplier with estimated future requirements.

Module 3: Section D: Supplier Selection, Contracting, and Use Term bilateral contract APICS CSCP Learning System	© 2023	Definition An agreement wherein each party makes a promise to the other party.
Module 3: Section D: Supplier Selection, Contracting, and Use Term contracts for the international sale of goods (CISG) APICS CSCP Learning System	© 2023	Definition Govern the sale of goods in the international environment. They enable exporters to avoid choice-of- law issues.
Module 3: Section D: Supplier Selection, Contracting, and Use Term trading partner agreement APICS CSCP Learning System	© 2023	Definition A contract between trading partners that describes all facets of their business together. A legal and binding agreement suitable for legal purposes as well as standard working agreements.
Module 3: Section D: Supplier Selection, Contracting, and Use Term cost-based contract	© 2023	Definition A type of purchasing contract where the price of goods or services is tied to the cost of key inputs or other economic factors such as interest rates.

Module 3: Section D: Supplier Selection, Contracting, and Use Term cost-plus contract APICS CSCP Learning System	© 2023	Definition A pricing method where the buyer agrees to pay the seller all the acceptable costs of the product or service up to a maximum cost plus a fixed fee. Syn: cost-type contract.	
Module 3: Section D: Supplier Selection, Contracting, and Use Term cost-plus-fixed-fee contract	© 2023	 Definition A contract in which the seller is paid for costs specified as allowable in the contract plus a stipulated fixed fee.	
Module 3: Section D: Supplier Selection, Contracting, and Use Term cost-plus-incentive-fee contract APICS CSCP Learning System	© 2023	 Definition A contract in which the seller is paid for costs specified as allowable in the contract plus a profit, provided certain provisions are met.	
Module 3: Section D: Supplier Selection, Contracting, and Use Term firm fixed-price contract APICS CSCP Learning System	© 2023	 Definition A contract in which the seller is paid a set price without regard to costs. Syn: fixed-price contract.	

Module 3: Section D: Supplier Selection, Contracting, and Use Term incentive contract APICS CSCP Learning System	© 2023	 Definition A contract where the buyer and seller agree to a target cost and maximum price. Cost savings below the target are shared between buyer and seller. If actual cost exceeds the target cost, the cost overrun is shared between buyer and seller up to the maximum price.
Module 3: Section D: Supplier Selection, Contracting, and Use Term incentive arrangements APICS CSCP Learning System	© 2023	 Definition Incentive contract that allows for the sharing of the cost responsibility between the buyer and seller. Incentives are incorporated into the contract to motivate the supplier to improve its performance in areas such as quality, on- time delivery, and customer satisfaction. There are three elements of an incentive agreement: target cost, target profit, and the sharing agreement.
Module 3: Section D: Supplier Selection, Contracting, and Use Term fixed-price incentive fee contract APICS CSCP Learning System	© 2023	 Definition A contract in which the seller is paid a set price and can earn an additional profit if certain stipulations are met.
Module 3: Section D: Supplier Selection, Contracting, and Use Term terms and conditions APICS CSCP Learning System	© 2023	 Definition All the provisions and agreements of a contract.

Module 3: Section D: Supplier Selection, Contracting, and Use			
Term payment terms APICS CSCP Learning System	© 2023		Definition Conditions surrounding payment for a sale, providing a time frame in which a customer can pay without late penalties or additional fees. See: terms and conditions.
Module 3: Section D: Supplier Selection, Contracting, and Use			
Term operating exposure			Definition The risk introduced by flexible exchange rates when operating in the global environment, including their effect on production, storage, and buying and selling prices.
APICS CSCP Learning System	© 2023		
Module 3: Section D: Supplier Selection, Contracting, and Use			Definition
Term purchase order		•••••••••••••••••••••••••••••••••••••••	The purchaser's authorization used to formalize a purchase transaction with a supplier. [When given to a supplier, this] should contain statements of the name, part number, quantity, description, and price of the goods or services ordered; agreed-to terms as to payment, discounts, date of performance, and transportation; and all other agreements pertinent to the purchase and its execution by the supplier.
APICS CSCP Learning System	© 2023		
Module 3: Section D: Supplier Selection, Contracting, and Use			
Term blanket purchase order APICS CSCP Learning System	© 2023		Definition A long-term commitment to a supplier for material against which short-term releases will be generated to satisfy requirements. Often [these] cover only one item with predetermined delivery dates. Syn: blanket order, standing order.

Module 3: Section D: Supplier Selection, Contracting, and Use Term expedite APICS CSCP Learning System	© 2023	Definition To rush or chase production or purchase orders that are needed in less than the normal lead time; to take extraordinary action because of an increase in relative priority. Syn: stockchase.
Module 3: Section D: Supplier Selection, Contracting, and Use Term portal		Definition A multiservice website that provides access to data that may be secured by each user's role. Users can aggregate data and perform basic analysis. Ownership [of this] can be independent, private, or consortium- based. Business [types of this] are often connected with a customer relationship management or supplier relationship management system. [This] can include structured data such as ERP information, pictures, and documents. Unlike exchanges or marketplaces, [it] generally can display and aggregate data without integration between application software.
APICS CSCP Learning System Module 3: Section D: Supplier Selection, Contracting, and Use Term horizontal marketplace APICS CSCP Learning System	© 2023	Definition An online marketplace used by buyers and sellers from multiple industries. This marketplace lowers prices by lowering transaction costs.
Module 3: Section D: Supplier Selection, Contracting, and Use Term vertical marketplace APICS CSCP Learning System	© 2023	Definition An online marketplace connecting buyers and sellers within the same industry. It enables lower prices by lowering transaction costs.

Module 3: Section D: Supplier Selection, Contracting, and Use Term private trading exchange (PTX) APICS CSCP Learning System	© 2023	 Definition A trade exchange hosted by a single company to facilitate collaborative e-commerce with its trading partners. As opposed to public e-marketplaces, a private exchange provides the host company with control over many factors, including who may participate (and in what manner), how participants may be connected, and what contents should be presented (and to whom). The ultimate goal might be to improve supply chain efficiencies and responsiveness through improved process visibility and collaboration, advanced integration platforms, and customization capabilities.
Module 3: Section D: Supplier Selection, Contracting, and Use Term consortia trade exchanges (CTX) APICS CSCP Learning System	© 2023	 Definition An online marketplace, usually owned by a third party, that allows members to trade with each other. Such sites lower members' search costs and enable lower prices for the buyer.
Module 3: Section D: Supplier Selection, Contracting, and Use Term virtual trading exchange	© 2023	 Definition An online trading exchange that enables both information integration and collaboration between multiple trading partners.
Module 3: Section D: Supplier Selection, Contracting, and Use Term reverse auction	© 2023	 Definition An internet auction in which suppliers attempt to underbid their competitors. Company identities are known only by the buyer.
